WHAT ARE CROSSRAY BBQ'S?

THE GAS BBQ THAT'S SMARTER BY DESIGN

CROSSRAY® BBQ's are a result of technical innovation and development over 10 years.

The design challenge was to create something 'NEW' in the BBQ market: redefining a BBQ to perform like cooking over a bed of red hot coals; providing even heat, reducing flare-ups and to be a true multi-functional outdoor cooking appliance, that produces tastier and juicier food, and so easy.

This is achieved using patented infrared cooking technology and includes both gas and electric versions, in portable, in-built and outdoor kitchen options.

CROSSRAY gas BBQ's are the only BBQ that can provide controllable, even heat from 140°C to 350°C+, while using 50% less gas than a conventional BBQ.

Incorporating patented angled infrared burners, the Award-winning **CROSSRAY Gas BBQ's** with 4 burners, are available in-built or with a trolley to be free-standing and fully portable. All BBQ's are LPG as standard, but fully convertible to natural gas.

FEATURES

- High intensity ceramic infrared burners, 13 MJ/hr each.
- Robust construction and world class quality 304 Stainless Steel with die cast end panels.
- Electronic ignition for simple burner start-up.
- 2-piece upper level cooking area provides 60% more cooking space.
- Significant reduction in flare-ups.
- Easy to access front drain tray.
- **NEW** 2 burner drop in BBQ with flame failure.

MAIN FEATURES OF CROSSRAY TECHNOLOGY

- Heats up quickly and cooks the food evenly with no Hot & Cold spots.
- Multiple options and configurations to suit all lifestyles & budgets.
- Patented and proven Infrared Technology creates efficient, even heat and control.
- Intensity and quality of charcoal with the convenience and control of gas.
- The Gas BBQ is the closest thing to self-cleaning grill plates you can get, which significantly reduces clean up.
- Perfect for all food types, from low & slow to a true pizza oven.

World class design and construction, it is built to last using only the best materials.

SETTING NEW STANDARDS IN OUTDOOR KITCHENS

CROSSRAY® gives you expert, professional results for the ultimate outdoor cooking experience.

The new **CROSSRAY 4B-S Series** sets a new standard for outdoor kitchens, if you are looking for a high-end outdoor cooking experience, without the price tag.

Upgraded corrosion resistant cabinets provide the perfect platform for the new sintered stone bench top that is supplied as standard with all kitchens.

Designed to perfectly match the award-winning 4 burner **CROSSRAY** in-built infrared gas BBQ, it is ideal if you love cooking and entertaining outdoors, in style.

With a wide variety of options and inclusions to choose from, you can find an outdoor kitchen that is perfect for you and your outdoor area.

MAIN FEATURES OF THE OUTDOOR KITCHEN RANGE

- Sintered stone bench-tops with 60mm mitred edges (quartz effect).
- Cabinetry designed to custom fit the Award-winning **CROSSRAY** Built-In BBQ.
- Multiple options available; flat bench tops; under-bench sink; single, double or no fridge options.
- Side cabinets suitable for exposed and coastal applications.

Build your perfect space for entertaining, whilst enjoying all the benefits of infrared cooking.
